

MOZAMBIQUE HORSE SAFARI: BENGUERRA ISLAND

INTRODUCTION

We are extremely proud to welcome you to Mozambique Horse Safari. We specialize in custom-made horse riding eco-safaris and day rides on Benguerra Island.

Benguerra Island is an unspoilt island made up of deserted beaches, forest, savannah, sand dunes and freshwater lakes. Horse riding is the most exciting and eco friendly way of exploring this incredible island with its magnificent scenery. Enjoy cantering along stretches of untouched sandy beaches, swim with horses in sparkling blue seas and relax under swaying palms as you watch the sun set after a day in the saddle.

The horses in Benguerra Island are our greatest and most treasured assets and we take extremely good care of them ensuring that they are responsive, alert, tough and fit. We have over 10 horses to choose from and each horse will be handpicked to suit your individual need.

The spirit of fun and adventure runs deep at Mozambique Horse Safari so bring your camera, saddle up and enjoy a truly unique African eco-adventure.
